Contents of Volume 56

Part 1 May 2003

1 **Applications and computational strategies for the two-point mixture index of fit**
C. Mitchell Dayton

15 **Repeated measures one-way ANOVA based on a modified one-step M-estimator**
Rand R. Wilcox and H. J. Keselman

27 **Dynamical system approach to factor analysis parameter estimation**
Nikolay T. Trendafilov

47 **A method of moments technique for fitting interaction effects in structural equation models**
Melanie M. Wall and Yasuo Amemiya

65 **Stochastic EM for estimating the parameters of a multilevel IRT model**
J.-P. Fox

83 **An enhanced branch-and-bound algorithm for a partitioning problem**
Michael J. Brusco

93 **Bootstrap approach to inference and power analysis based on three test statistics for covariance structure models**
Ke-Hai Yuan and Kentaro Hayashi

111 **An asymptotic partial correlation test for the Goodman–Kruskal λ**
Ronald C. Suich and Richard J. Turek

119 **A fast method for choosing the numbers of components in Tucker3 analysis**
Henk A. L. Kiers and Albert der Kinderen

127 **Evaluation of global testing procedures for item fit to the Rasch model**
Juan C. Suárez-Falcón and Cees A. W. Glas

145 **Bayesian model selection for mixtures of structural equation models with an unknown number of components**
Sik-Yum Lee and Xin-Yuan Song

167 **Pairwise multiple comparisons: A model comparison approach versus stepwise procedures**
Robert A. Cribbie and H. J. Keselman

183 **Book reviews**

191 **Statistical software review**

197 **Editorial acknowledgement**

Part 2 November 2003

199 **Direct fit of a theoretical model of phase transition in oscillatory finger motions**
Peter C. M. Molenaar and Karl M. Newell

215 **The structure of self-reported emotional experiences: A mixed-effects Poisson factor model**
Ulf Böckenholt, Wagner A. Kamakura and Michel Wedel

231 **Weak measurement invariance with respect to unmeasured variables: An implication of strict factorial invariance**
Gitta H. Lubke, Conor V. Dolan, Henk Kelderman and Gideon J. Mellenbergh

249 **Local influence analysis of structural equation models with continuous and ordinal categorical variables**
Sik-Yum Lee and Liang Xu

271 **Type I errors and power of the parametric bootstrap goodness-of-fit test: Full and limited information**
Nikolaj Tollenaar and Ab Mooijaart

289 **Does the ADF fit function decrease when the kurtosis increases?**
Ulf Henning Olsson, Tron Foss and Sigurd V. Troye

305 **Three-mode analysis of multimode covariance matrices**
Pieter M. Kroonenberg and Frans J. Oort

337 **A general class of latent variable models for ordinal manifest variables with covariate effects on the manifest and latent variables**
Irini Moustaki

359 **a-Stratified CAT design with content blocking**
Qing Yi and Hua-Hua Chang

379 **Book reviews**
